**Talk: The Transformational Present: Light Body Experience**  
 by Linda de Villiers on Thursday 22 September at 19h00  
 Cost: R30 includes tea and cake

Longing for light we wait in darkness  
 Longing for truth we turn to you  
 Make us your own, your holy people,  
 Light for the world to see  
 Christ be our light, shine in our hearts,  
 Shine through the darkness  
 Christ be our light, shine in your truth,  
 And glory today.  
 [Hymn]

We are in a very sacred time in the history of our planet and its people. It is a time of radical change and transformation, and has been referred to as the shift of the ages. Transformation is an inner process as well as an outer process because of the "as above so below" universal principle. When the inner and the outer are not in sync, we experience conflict and despair. When the inner and the outer are in harmony, we experience a sense of flow and harmony. Linda will

bring clarity to the outer changing picture and stories of 2012 which have been so confusing, and focus on the inner transformations that can take place at this time, which will bring us into sync with outer planetary changes, including the ability to adapt to changing weather patterns etc.

Many pathways of knowledge are coming together, and the common basis for science, medicine and spirituality is now a higher consciousness connected with what is referred to as the "embodiment of light" or the Light Body. Higher Light vibrations are pouring into our planet and bodies, literally transfiguring all organic matter. Planetary and personal chakras

and meridians are changing. Our blood chemistry and organs are changing. Old systems of energy healing are therefore no longer effective. Old ways of living don't work! It is time to come to a greater understanding of our soul function, purpose and place, within this spiritual universe and new Earth energy.

As 2012 unfolds, a 6000 year old history comes to an end. A new "program of Divine Light" is being written and woven into the very fabric of our universe, planet, our DNA, our cells and our extended energy bodies. This is a wonderful opportunity to release our old, out-dated, acquired stories. It is a time of REBIRTH and RENEWAL for Earth and her inhabitants of how things can be, to be celebrated (not feared). Through learning more about our GOD-SEEDED CHRISTOS or CHRIST LIGHT - otherwise called the Light Body - we can strengthen our experience of our God seeded Divine Light, and participate consciously and willingly as spiritual beings and identities in a new Earth and body dynamic and beyond.

Axiatonal lines are 5D vibratory lines of energy fields in patterns of sound and colour that run through the planet, the body (connecting with meridians), and beyond. Through this the body is maintained and can also be re-made; proper functions restored and accelerated; through this the body can be rebuilt cell by cell, molecule by molecule, thought form by thought form. It is possible to work with the energies of your body's axiatonal lines and vortices to strengthen your Light Body vibration. Doing this will help to bring more light, love, fulfilment, clarity and peace to all areas of your life.

Linda de Villiers is a holistic practitioner with 30 years of experience in facilitating personal transformation, having studied life sciences including spiritual psychology, metaphysics, mysticism and complimentary health.
